

v:kit allows you to cut the cost of HPLC and GC IQ OQ PQ Qualification by up to 90% and uses one standard

- The IQ/OQ starter kit for LC "InitialLC" validates the gradient pump, column thermostat, UV detector
- The IQ/OQ starter kit for GC "InitialGC" validates temperature accuracy and stability, flow rate, detector
- Certificated tools (Gas- or liquid-flowmeters, thermometers, syringe pumps) are available, too.
